

# 1000 Series 48" Wide Storage Cabinets

## Handle Big Loads and Packages Easily!

These big, 48" wide, 24" deep cabinets really function as storage closets, offering more capacity and reinforced shelves that easily handle big loads and big packages.

The wide cabinet area and wider double doors present easy access to store and retrieve large boxes, bulky and ungainly materials or pieces of equipment.

With all the features and construction details of Lyon 1000 Series storage cabinets (described on following pages) these big units are ideally suited for areas where no storage room exists, or space limitations require fewer cabinets to handle more items.

**IMPROVED "QUIET-DOOR" FEATURE**  
 Now, nylon washers, plastic inserts and felt pads take the clang out of the metal in the door and lock bar assembly. The result is a quieter operating cabinet with no loss in strength or durability.
